

Cargo baskets | Wardrobe

Nomet kitchen

While designing a kitchen, special attention should be paid to the optimal storage and organization of kitchen items such as dishes, pots, kitchen utensils and food products. Therefore, it is worth considering several important issues:

- **Functionality** - the key goal of kitchen design is to ensure maximum functionality and convenience of use. Therefore, it is important to choose kitchen accessories in such a way as to facilitate access to all stored items, as well as taking them out and putting them back in.
- **Ergonomics** - cargo baskets and drawers should be designed to allow comfortable and trouble-free use, without having to move heavy objects or lift them to a height.
- **Optimization of space** - our cargo baskets are fully extended and have additional partitions, which allows for maximized use of the available space.
- **Easy to clean** - cargo baskets are easy to keep clean and hygienic.

Remember, your choice of kitchen accessories, such as cargo baskets and drawers, should take into account functionality, ergonomics, aesthetics, space optimization and ease of cleaning. Thanks to it, users will be able to enjoy a well-designed kitchen that will provide them with maximum convenience and comfort during use.

Our company offers a wide selection of kitchen accessories that meet the requirements. **You are encouraged to get to know our offer and choose the best solutions for your kitchen.**

Choose the perfect line of cargo baskets for your kitchen:

- 
prestige supreme line
 - the best offer, the highest quality and the greatest number of possible personalization options for your kitchen
- 
prestige line
 - a perfect solution for people looking for high-quality cargo baskets at an affordable price
- 
pro line
 - a choice for demanding customers who value functionality and aesthetics
- 
standard line
 - an offer for people looking for basic cargo baskets at good prices
- 
economic line
 - an ideal choice for those who are looking for savings without sacrificing quality

Why is it worth using baskets in the kitchen:

- **Optimal use of space** - baskets let you use all the space that is usually difficult to access at the back of the cupboard. Thanks to this, you can better manage your kitchen space.
- **Increasing the capacity of the cabinet** - baskets let you store more items and food products in the cabinet, which increases the capacity of the entire kitchen.
- **Easy access to stored items** - the basket allows convenient and easy access to the items stored in it, you can save time and effort needed to look for the things you need.
- **Order and organization** - the basket allows better organization of stored items, it lets you keep your kitchen tidy and easier to use.

Systems for lower cabinets Bottom mounted

- full extension
- optional shelf dividers
- bottom mounted
- soft close
- max. system load 30 kg

The perfect organization of the kitchen determines whether it will be comfortable in its usage and will give us pleasure.

The ideal solution is to abandon traditional shelves, especially in the lower cabinets, where it is difficult to remove items located deeper. Instead, it is worth using cargo systems that make all products perfectly displayed.

Systems for overhead cabinets

Dish drainers

Several advantages of a dish drainer mounted in a kitchen cupboard:

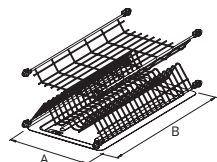

- Useful even with a dishwasher
- Space-saving - installing the dish drainer in a kitchen.
- Aesthetic appearance - the dish drainer mounted in a kitchen cupboard can be easily hidden.
- Ease of use - installing a dish drainer in a kitchen cupboard over a sink makes it easier to use it every day.

Nomet wardrobe

Nomet is a company that has been producing high-quality accessories for cupboards and wardrobes for many years. Our products are being intensively developed, which means that each year we introduce new technical and functional solutions that meet the needs of our customers.

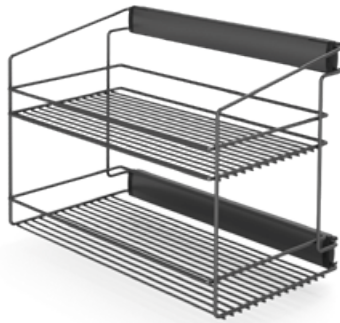

- Dozens of items in the collection let you effectively use the space in the wardrobe according to individual needs of users.
- A system of coherently designed drawers, hangers, shelves and baskets enables any configuration of space and facilitates the organization of wardrobes.
- The colors of the products are in line with the current trends, it lets you match them to the style and appearance of your wardrobe.
- All elements of the outfit, such as shirts, jackets, skirts, trousers, coats and many more, are organized and at the same time easily accessible and visible.

Nomet designers pay attention to every detail so that the products we design are functional, durable and aesthetic. Many years of experience and a modern technological park let us produce accessories of high quality and above-average durability.

You are encouraged to get to know our offer and to contact our advisors who will help and advise you in choosing the right products. Bet on Nomet and you'll see that it's worth it!
